AI SECRET SAUCE

WITH PAUL PREIBISCH

The secret isn't the sauce. It's that there are only five ingredients — and nobody ever showed them to you.

INGREDIENTS

1. **How 82 people came through the door on a week and a half of runway.**
   LAUNCH NIGHT AT THE GRAND HALL — THE MARKETING AGENT THAT HELPED
2. **AI agents that take over the tedious marketing and website admin.**
3. **A real website built with AI — the way bclatindance.com was built.**
4. **Get AI out of the chat box and into the apps you already use.**
5. **Free tools that replace software you are paying for — AI installs them.**
